THE
AUSTRALIAN SCIENCE TEACHERS
JOURNAL

Index to Volume 31(4), March 1986 (Issue 99); and Volume 32(1,2,3, and 4), 1986-7 (Issues 100,101,102, and 103)

	ISSUE	PAGE
FEATURE ARTICLES		
A case for new content in school science *Wallace, J.*	101	33
Alternative working hypotheses; a proposal for teaching about evolution and creationism *Piburn, M., Marr, F. & Allan, T.*	101	45
Bio-medical technology, ethics and the science curriculum *Skamp, K.*	99	51
Chemical equilibrium: learning difficulties and teaching strategies *Hackling, M.W. & Garnett, P.J.*	99	8
Compounding the errors: ten checks upon creation science — a response *Bridgstock, M.*	102	33
Differences in cognitive development of high school students *Beven, T.P.*	99	20
Different ways of looking at the same thing *Bunker, K.*	102	14
Education, science and technology: keys to Australia's future *Dunstan, P.*	101	27
Fundamental calculations with the mole *deBerg, K.C.*	100	29
High school science *Tobin, K.*	103	22
How can science educators compete with sensationalist journalism and pseudoscience? *Happs, J.C.*	103	40
Laboratory work in schools and universities: structures and strategies still largely unexplored *Lynch, P.P.*	103	31
Material culture in traditional aboriginal society: fiction and fact *Scott, A.W.*	100	9
On energy gods *Gipps, J.*	101	51
Participatory enquiry into sexism in science teaching *Robottom, I.*	102	27
Physics students' comprehension of motion with constant velocity *Gardner, P.L.*	99	27
Should integrated science courses be restructured? *Rowe, M.J. & Hacker, R.G.*	99	14

Teaching 'energy'? — beware of the sun god
Costa, N.A. 99 44
Teaching science in context: the green revolution
Costa, N.A. 100 19
Text book analysis of the mole and its underlying concepts
deBerg, K.C. 99 33
The VELA approach to school science laboratory instrumentation
Parham, R. 103 13
The nature of science and the creation versus evolution debate
Havel, P. 100 37
The origin and evolution of the solar system
Woolfson, M.M. 101 11
The scientific diagram: is it worth a thousand words?
Lowe, R. 102 7
The teaching of plant tissue culture
Carter, J. 100 24
Why teach science?
Jones, B.O. 101 24

JUNIOR SCIENCE NOTES

Acids & alkalis book
Lewandowski, L. 102 38
Aspro Clear and reaction rates
Hill, D.M. 102 37
Conduction tester and voltaic cell
Austen, N.E. 102 39
Disease reports
Lewandowski, L. 102 38
Drama: an alternative teaching strategy
Norris, L. & Harris, C. 100 45
Recognising clouds
Slocombe, M.G. 101 53
Room deodorants
Hill, D.M. 102 38
Simple science problem solving
Woolley, T. 101 55
Sun, earth and moon
Austen, N.E. 102 40

BIOLOGY NOTES

A recurrent, incorrect example in human genetics
Scott, A.W. 100 54
Active transport
Hodgkin, C.G. 102 43
Keeping the green tree frog
Isaacson, T. 100 52

Overcoming the problems of anthropomorphism and teleology
Scott, A.W. 100 51
Preparing demonstrations of skeletal anatomy
Hamley, T. 101 57

CHEMISTRY NOTES

Computer simulation of chemical equilibrium
Simpson, B. 100 55
Elementary profiles II
Schibeci, R.A. 101 62
Iodine extractions
Sperring, A.J. 102 45
Rainbow reactions
Sperring, A.J. 102 46
Simple colorimeter
Fogliani, C.L. & Townsend, I.T. 101 59
Sources of school chemistry projects
Schibeci, R.A. 102 48

EARTH SCIENCE NOTES

Classifying igneous rocks in hand specimen
Grenfell, A. 102 52
Geological models in structural geology and geological mapping
Grenfell, A. 100 61
Investigating Australian shield volcanoes: the Tweed example
Grenfell, A. 101 65
Isostasy models
Austen, N.E. 102 50
Petrological microscopes: some alternatives
Scott, P.A. 100 58
The Nabsirb metamorphics: a stratigraphic puzzle
Grenfell, A. 101 68

PHYSICS NOTES

A physics quiz for high school students
Smith, C.L. & Thurgate, S.M. 101 74
Diffraction using a sieve
Scott, P.T. 102 58
Interfacing a BBC computer to laboratory equipment
Hurst, T. 101 71
The induction motor
Austen, N.E. 102 60
Tracking weather balloons with home-made theodolites
Hurst, T. 100 66

Try this at the start of a lesson
Stephens, J. 102 59
X-rays discovered
Kinsella, D. 102 66

RESEARCH

Children's understanding of environmental dilemmas
Langford, P.E. 102 67
Feedback from crib cards in organic chemistry
Trigwell, K. 100 70
Science and the development of children and teachers
Boylan, C.R. & Hill, D.M. 101 76
Teacher and student use of time in a self-paced senior chemistry classroom
Beasley, W. & Burr, C. 102 71
The science related activities of students entering high school
Rennie, L.J. 103 52
What do students perceive as difficult in H.S.C. chemistry?
Butts, W. & Smith, R. 103 45

SCIENTIST'S VIEWPOINT

Dr Elizabeth N. Marks
Qld Institute of Medical Research 101 84
Professor Frank D. Stacey
University of Queensland 102 78
